About Trumpet's Inclusive Autism Program

Trumpet Behavioral Health[®] provides Applied Behavior Analysis (ABA) therapy for Autism and related developmental disabilities through an inclusive ABA program at Faith Lutheran Preschool.

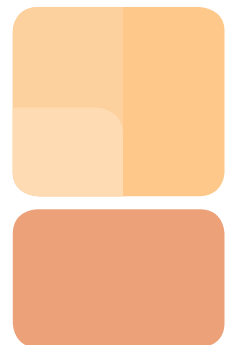

Carefully crafted age appropriate ABA programs and combined clinical and developmental expertise make this program an instrumental way to offer inclusive opportunities for children of all developmental backgrounds.

We work with you to identify why your child may be engaging in challenging behaviors and to find ways to motivate him or her to improve that behavior.

We look at the skills your child already has and determine how to build on these skills to develop social, communication, play and self-help skills as well as other positive behaviors.

You can do it. Trumpet can help!
